Internal Revenue Collector Downey to Plead Guilty-Jacobs Entrapped Him by a Loan of \$100-How the Paper Was Made-More Large Cigar Seizures Reported. PHILADELPHIA, April 25 -- Chief Wilkie of the United States Secret Service announced positively to-day that all the warrants had been served in the famous counterfeiting case, and that the arrest of Deputy Internal Revenue

last that would be made in the case. "Downey," said the Chief, "will plead guilty We found enough documentary evidence against him in Jacobs desk to prove beyond a doubt that he had received money from Jacobs in return for information about the doings of the Secret Service men. On Oct. 10 last. Downey went to Jacobs and told him that he was in fluancial distress. 'Will \$100 do you any good?' asked Jacobs, and, Downey saying if would, he accepted the money.

Downey then told Jurobs that he had done more for him than his own brother would, and told him that the Secret Service men were after him. Jacobs did not believe it at first, but was finally convinced. Jacobs thought to reach Burns through Downey, but failed. In all Downey got about \$1,500 from Jacobs. The specific charge in the affiliavit against him is that he received \$100 on April 17. Downey kept going to Jacoba's piace from that time and drawing money, and in that way received the whole sum. We have got them all now, and there is nothing for me to do but wait for the hearing of Messrs, Ingham and Newitt."

The arrest of Ingham develops the fact that there are two charges against Newitt, one for attempting to bribe McManus and the other for conspiracy with Ingham to bribe a Government official. It was asserted to-day that the operations of the counterfeiters of stamps had been started while Ingham and Newitt were in the Government service, and that they had become connected with the scheme, and further that they had been counting on the retention of the office and control of its machinery to balk prosecution, or at least keep them advised of the movements of the Government to

GENERAL ELECTRICS STATEMENT. Interesting Figures Showing the Business of

The seventh annual report of the General Electric Company for the year ending Jan. 31, 1894, was issued yesterday. The total sales during the year were \$15.070;430.80, with a calculated direct profit of \$2,584,888,61. The increase in orders was 21 per cent over the year before. During the year large additions were made to the company's plants at Sche-nectady, N. Y.: Lynn, Mass., and Harrison, N. J., the total cost of which was \$897,-739.58, and this entire amount was met out of current receipts and written off the books. A portion of the gross income Collector Samuel Downey of Lancaster was the for the year, amounting to \$324,402.03, was acquired by the sale of certain securities which the company held on the books at \$740,-498.36, which brought \$1,070,960.39, and this money, the report says, was not needed in the business, and was devoted to the purchase of \$300,000 of the company's own debentures, to

\$300,000 of the company's own debentures, to extensions to the factory plants, and to acquiring of stocks and bonds in subsidiary companies, amounting in face value to \$814.221.

The unmatured and unsettied balances due to the company at the end of the year were \$4.447.311.10, and this sum is but little in excess of the sales of the last three months of the year, which amounted to \$4.151.904.62. The report says that in the settlement of old accounts during the year a net gain of \$44.816.80 was realized over the sum at which they were carried on the books, and that of the \$2.432.890.88 old notes and accounts receivable which were written off three years ago at a nominal value of \$1 an account. \$1.374.-10.342 remains, which stand on the books at \$131. From settlements of this class of accounts the company received during the year \$62.190.62.

counts the company received during the Year \$62,180.02.

The company has no note payable, "the report says," nor is there under discount any paper bearing the company's indorsement or guarantee. It has not borrowed any money, nor has the company's credit been used during the year either by issuing notes, indorsing customers paper for discount or lending its name in any way; but by albering to the polycy of the previous four years and maintaining sales on a basis of cash or short credit to destrable customers, all purchases have been paid for in eash.

ROARD OF SURFEY'S REPORT ON THE MANITOBA'S BEEF.

Ment in Which Gen. Miles's Surgeon Found Chemicals Held to Have Been Porto Bican Reef-The Refrigerated Boaf Declared to Have Been of Good Quality.

WASHINGTON, April 25.-The board of survey appointed several months ago to inquire into the loss of about 300,000 pounds of refrigerated beef shipped to Porto Rico last August on the Manitoba presented its report to Secretary Alger to-day. It was accompanied by about 200 pages of closely written testimony and many reports of officers. The report itself is orief, and answers explicitly each of the instructions of the Secretary of War contained in the order convening the board.

The order named the following board: Col.

James M. Moore, Assistant Quartermaster-General: Col. Francis Guenther, Fourth Artillery; Col. Dallas Bache of the Surgeon-General's department and Cact. L. C. Sherrer. The ast pained acted as recorder. Its instructions To examine into and report upon the responsibility for the loss of about 300,000 pounds of refrigerated beef, the property of Swift & Co. of Chicago; to ascertain and report if due and proper effort was made to to fix the responsibility if due and proper effort haracter and quality of the refrigerated beef subjected to any chemical processes whatever, and to report whether or not the United States s responsible for its loss and whether in its pinion Swift & Co. should or should not be eimbursed for the beet."

The report was not made public officially, but it is learned that the board reached the con-clusion that the beef was not treated with any chemical process, and that no proper effort was made to issue it to the troops at and around Ponce. As to its quality, the board holds that it was in good condition when it left Newport News and was of proper quality and character to be issued to the troops when the essel arrived at Ponce.

Dr. Daly, who originated the charge of embalmed ment, alleged that some of this meat was received on board the Panama, and that from a soup made of it he obtained a residuum which contained borne and salicylic acid. The which contained borie and salicylic acid. The testimony before the board of survey showed that native beef was also received on the Panama, and its members reached the conclusion, after considering all the testimony, that the soup made by Dr. Daly was from native beef instead of the refrigerated beef. On this subject the report holds that the beef on the Manitoba was not treated with chemical treasuratives. reservatives. In conclusion the board decides that as Swift

In conclusion the board decides that as Swift & Co. were in no way responsible for the loss of the meat, they should receive the sum agreed inpen in the contract with the Government. This is about \$25,000.

The testimony before the board briefly gives the following history of this beef. Gen. Grant at Newport News received early in the day of Aug. 2 a telegram instructing him to have the Manitoba loaded with supplies for the troops at Ponce. Forto Rico. After 11 o'clock that night a telegram was received at the War Department from Gen. Miles requesting that no more fresh beef should be sent to Porto Rico. A portion of the cargo of 300,000 rounds had been put on the vessel, and on Aug. 5 Gen. Grant received a telegram from the Secretary of War to complete the loading of the Manitoba with the least possible delay, and have the Manitoba discharge on her arrival at Forto Rico as quickly as possible. The ship was then to report to tiem. Shafter. The Manitoba sailed on Aug. 5. Arriving at Porto Rico she ran on a rect outside the harbor of Ponce and damaged her refrigerating apparatus.

of Ponce and damaged her refrigerating apparatus.
Word was sent to Ponce of the arrival of the vessel with its cargo of fresh beef. Major Black, Chief Commissary of the staff of Gen. Miles, admitted in his testimony that he made no special effort to issue this beef to the troops at and around Ponce. Before the vessel was unloaded orders came to proceed to Mayagues to discharge other articles on board, and after she returned to Ponce Cast. Pometoy and Col. Smith, in charge of the commissary depot, issued about 16,000 jounds of this beef. The Panama was then being fitted up to bring convaiescents home and received from the commissary depot about 2,000 pounds of fresh beef. Some of it was refrigerated beef and some was native beef. Meanwhile the Manitoba returned to the United States with the remainder of the refrigerating apparates the meat spoiled e refrigerating apparates the meat spoiled that to be condemned and thrown over-

and had to be condemned and thrown overtoord.

This concludes one of three inquiries that have been going on for several months. Each investigation resulted from charge-sagainst the food supply of the army in the war with Spain. Gen Miles ordered an inquiry by the Inspector-General Garlington made an investigation. More recently the court of inquiry was ordered to investigate his allegations. Inspector-General Garlington separation of the secretary of War, but the court of inquiry decilined to consider it in evidence. It gives no new evidence of the use of chemicals in the preservation of fresh meat, though parts of it call attention to the use of chemicals in the preparation of hams and other pork products. Of the persons mentioned as having furnished information, many of them have already testified before the court of inquiry. As to the cannel roast beef, to distribution sums up the reports of officers as to its use, but as these reports have all been received by the court of inquiry they present nothing new.

The court of inquiry began to-day to outline its report and the indications are that it will be completed this week.

AFFAIRS IN PORTO RICO.

A Satisfactory Condition Reported by Governor-General Henry.

WASHINGTON, April 25.-The War Department has received copies of several general orders recently issued by Major-Gen. Guy V. Henry, Governor-General of Porto Rico. The War Department having forbidden the issue of rations to Porto Ricans, the commanding officers of posts are authorized by Gen. Henry to prevent suffering among the people in their respective localities, by purchasing necessary articles of food at a rate not to exceed 10 cents a day, Spanish money, for each needy person and to send the bill for the same to the office

and to send the bill for the same to the office of the Governor-General for payment from the moneys of the Island. Gen. Henry says that great discretion must be used in carrying out his instructions and that aid must only be extended to those who are unable to work or to obtain the same.

Gen. Henry remarks that his recent visit to Caguas. Cayey, Albonito, Coamo, Coamo Springs, Santa Isabel, Guayama, and Arroyo showed a satisfactory condition of affairs and that the people are strongly in sympathy with American methods and progress. At Coamo Springs, he says, a most patient and commendable work is progressing in procuring vaccine for the benefit of the people of the Island. At some of the towns complaint was made as to the cost of bread, which was then selling at 8 cents a loaf, the same as last summer, aithough the price of flour is much less now. Gen. Henry says the price should not be more than theents a pound. It is the duty of the Alcaldes, says sen. Henry, to reduce as far as possible the cost of the becomerse of life and to increase that a, on other articles.

The work of building roads, taking charge of the schools and pairs, so as to reduce the taxes of the people, will, then Illeary says, be taken up as rapidly as possible. In the meantime all budgets will be reduced to the lowest possible limit, honest economy practiced in all directions, and patience exercised during the period of transition between a military and a civil administration of affairs.

Weather Conditions Generally Less Favorable Than the Week Before.

Washington, April 25.-The weekly crop report issued by the Weather Bureau to-day says that the weather conditions of the week ending April 24 were generally less favorable than those of the preceding week. Portions of eastern Kansas, Missouri, Oklahoma and western Arkansas and local areas in Alabama suffered from excessive rains, while in south-ern Michigan and portions of the upper Ohio Valley and the Middle Atlantic States light rains would prove beneficial. Very favorable conditions are reported from the west Gulf States and generally from the region to the eastward of the Mississippi River. On the north Pacific coast it was too cool and frosts were more or less injurious to fruit and tender vegetation in the Rocky Mountain districts.

Westward of the Mississippi corn planting a now in progress as far north as southern Nebraska, and eastward of the Mississippi planting has begun in the southern portions of Illinois, Indiana and Ohio and in West Virginia and Maryland. Wet weather has retarded planting in Missouri, but rapid progress has been made in Tennessee, Virginia and North Carolina. In the east Gulf States corn has generally made good growth, but cut worms are causing damage in Mississippi and Georgia. In Texas the crop is generally well cuitivated and growing fairly well, but needs

cuitivated and growing fairly well, but needs warm sunshine.
Continued improvement is generally reported in the condition of winter wheat; much of the crop, however, has been winter killed, especially in southern lowa and over the northern portions of Missouri, Illinois, Indiana and northwestern Ohio. Except in Southern Canfornia and in the upper San Jonquin Valley, the outlook for wheat in the Pacific coast States continues promising, an improved condition being reported from Washington.

Spring wheat seeding is nearing completion over the southern portion of the soring wheat region, but has been delayed by unfavorable soil conditions over the northern portion.

The bulk of the out crop has been sown, except in the more northerly regions, where seeding is in progress. In the States of thecentral valley the early sown is coming up well; the crop is beginning to head in the Southern States, where its condition is generally promising, although useding rain in portions of the Carolinas.

Cotton planting is now general over the northern portion of the cotton region, except in Oklahoma and northern Texas, where it has been delayed by wet weather, and is well advanced in the central portions. In southern Texas it is coming up to good stands, except in localities. Scarcity of seed is reported from the central portions. In southern Texas it is coming up to good stands, except in localities. Scarcity of seed is reported from the central portions. Transplanting is in progress in the Carolinas.

Except in Tennessee the general outlook for tobacco plants is encouraging. Transplanting is in progress in the Carolinas.

New England—Boston—Warm, sunny week; farm work progressing well in southern districts; onts and tobacco nearly all sown in Connecticut; garden truckers busy; potato careage iargely increased; fruits promise full bloom, except peaches; season not open in northers portion.

New York—Ithaea—Weather conditions very favorable for farming operations; ploughing general; ont seeding well advanced in places; potato planting and gardening progressing; wheat, rge, grass and clover decidedly improved and growing rapidly; no damage to fruit; hops six inshes high in Dutchess county. New Jersey—New Blunswick—Conditions have been mostlaworable for ploughing, planting and seeding, but cold easterly, winds have retarded the growth of all vegetation; oats all seeded in southern and middle districts and well advanced in northern districts; gloughing for corn in progress; ice formed on mornings of 17th and 22d, no damage reported; a warm rain greatly needed.

Pennsylvanta—Philadelphia—Weather and soil conditions excellent for farming operations; more rain would be beneficial; rapid meek warm and sunshiny; light frosts Tuesday and Saturday morning; no rain; week favorable for farm work and sill sown; some up; will be some p

John Williams, who lives next door, heard cries for help and running outsaw Mrs. Oswald at the window, with blood running from her wounds down the weather boards to the sidewalk. With a bound he was at Oswald's front door, which he kicked in. Just then Mrs. Oswald rushed to the bottom of the stairs, carrying her dying child and with Edna clinging to her skirts and crying. As she reached the doorstep she fell with a gasp and died. The child which she carried expired the same instant.

When a search was made for the murderer Oswald was found on the second floor. As a policemum entered, Oswald lifted the bloody knife and gashed his own throat. The policeman closed with him and soon disarmed him, as he was growing weak from loss of blood.

TO BUILD ANOTHER PIER.

Hamburg-American Steamship Company Buys Waterfront in Hoboken.

The Hoboken Land and Improvement Company, representing the Stevens estate, sold 250 feet of waterfront property in Hoboken yesterday to the Hamburg-American Steamship Company for \$462,000. The property is occupied by the repair shops of the Pennsylvania Bailroad the repair shops of the Pennsylvania Railroad Company, and adjoins the piers of the steamship company. The railroad company will remove its shops to property at the foot of Tenth street, which is purchased from the Hoboken Land and Improvement Company for \$420,000. The Pennsylvania Railroad Company was represented in the transaction by Benjamin W. Carskaddon. Mortgages, the amount of which were not stated, were assumed by the purchasers in each sale. The transaction has been pending for several years. The steamship company will now have room to build another pier.

UNFAIR TO BROOKLYN.

So the Brooklyn League Describes the Ta-The Brooklyn League, which has been in estigating the tax books of the boroughs of Manhattan and Brooklyn since 1858, has issued a circular reiterating its statement that sued a circular reiterating its statement that since the consolidation Brooklyn property has been assessed in excess of Manhattan property. The circular declares that while Brooklyn has been relieved by the assessments of 1889, there still remains at least 15 per cent. difference in valuations in the two boroughs against Brooklyn. The circular says that the assessed valuation in Manhattan for 1869 has been increased about \$400,000,000. Of this \$400,000,000. 600 increase, however, a large proportion was made upon new property of the skyscraper class, much of which has either never been taxed or had been inadequately taxed, so that the actual increase upon what may be called old property in Manhattan is about 15 per cent."

PRICE AFTER AN INSPECTORSHIP.

Tenderloin's Ruler Applies for Kane's Job-Ninety Sergeants Out for Captaincies. Police Captains James K. Price of the Tenderoln station and James H. Kenney of the Coney Island squad followed Capt Stephen O'Brien vesterday in filing applications for the vacant yesterday in hing applications for the vacant Inspectorship temporarily held by Acting Inspector Kane. It now seems as though there will be an interesting context for the place, though Mulberry street still thinks that Kane will succeed in keeping it.

No opposition application has been filled for the place held by Acting Deputy Chief McLaughlin, but more than ninety police Sergeants have already applied for the half dozen vacant Captaincies.
